CELEBRATING WOMANHOOD

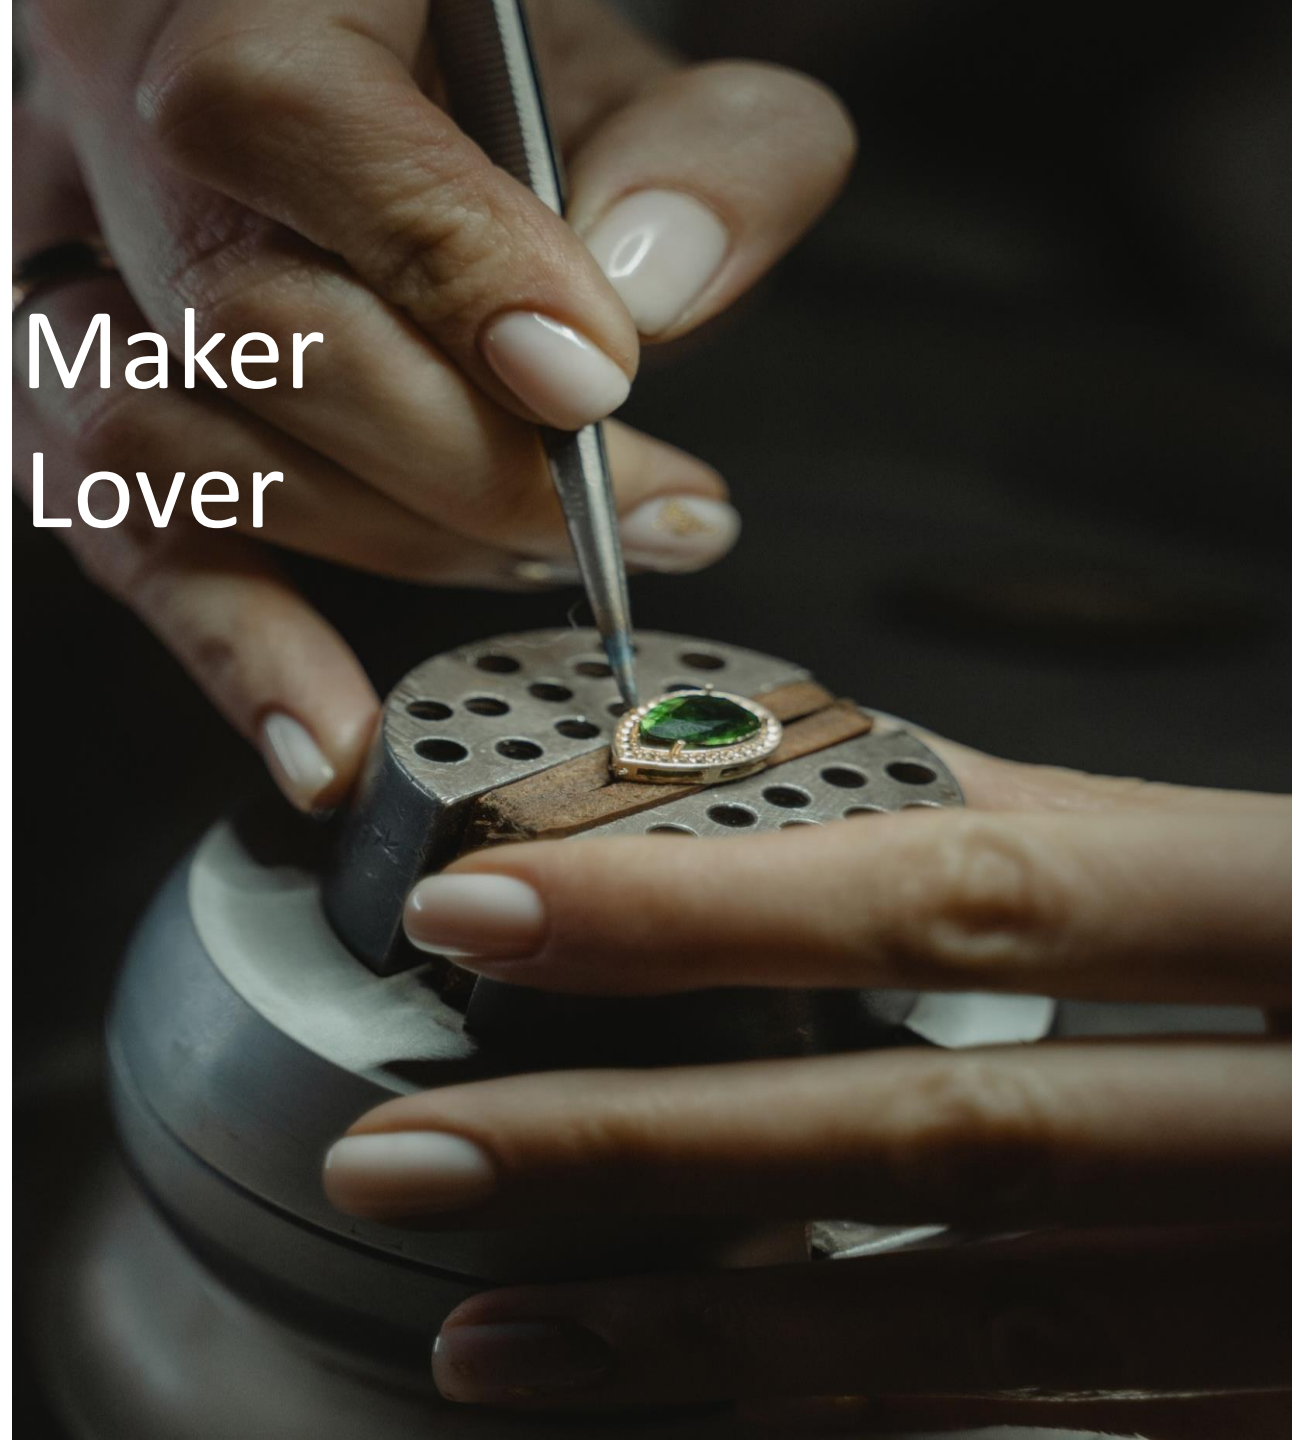

Who Are We?

Jewelry Maker Crystal Lover

We love jewelry & crystals as much as you do. So, we decided to take our passion to the next level and started making these beautiful pieces of art and exporting across the world. We are located in the country known for its rich heritage and culture named as India.

Our local artisans have inherited the art of jewelry making and an eye for beauty from their ancestors. They are the generations who are sharing intimate relationship with every piece of jewelry since ages.

Kalin couture is a woman led organization for the women. This means all the designs are created by skillful hands under the supervision of its own wearer. This ensures no compromise on quality and comfort.
